PROFILE

I am a skilled Moroccan web developer and software engineer with a passion for creating innovative solutions. I am proficient in NodeJS, PHP, JavaScript, and other languages. I also have a strong foundation in computer science principles and programming methodologies. I am always eager to explore new technologies and expand his skillset.

EXPERIENCE

WEB DEVELOPER

Droiders Company

2021 - 2022

- During my tenure as a web developer at Droiders Company, I had the privilege of immersing myself in a dynamic and creatively charged environment. Collaborating closely with cross-functional teams

BACK-END DEVELOPER

Arabian Marketing Col Company

2022 - 2023

- As a backend web developer at Arabian Marketing Col Company, I designed, implemented, and tested backend systems, ensuring seamless integration with the frontend. My expertise in various programming languages and frameworks enabled me to deliver robust and efficient solutions that met the company's business objectives.
